

NAVORI PLAYER

POWERFUL AND RELIABLE PLAYBACK, ANYTIME... ANYWHERE...

Update your content on the fly without affecting playback quality.

Supports all Navori functions:

- Mosaic - simultaneous media playback
- Crawling Text Banner - text entered directly, in a file on a server or RSS feed
- Interactive and on-demand media playback
- Boost Media - instant scheduled media override triggered by a keyboard command at the Player level.

Boost Media is an ideal way to call up multimedia content as needed without disrupting the regularly scheduled content. Simply define specific keyboard triggers in Navori Server and update your Players. Any Player can then call up and play these media clips without the need to modify the Playlist or schedule.

Uses are:

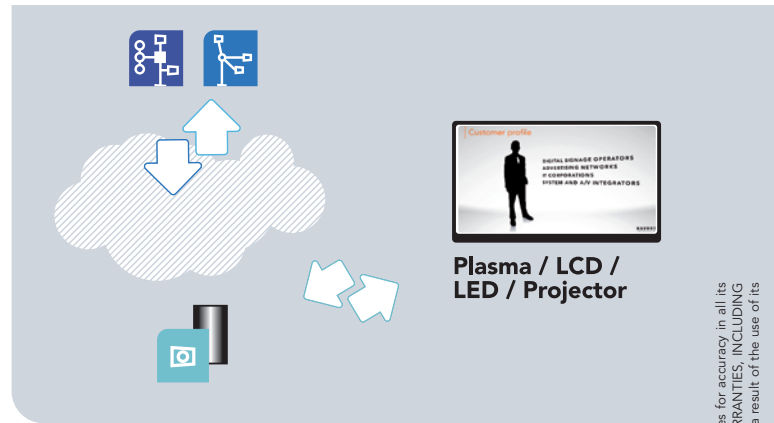

- Public announcements, alerts, notifications
- Instant promotions
- Media-on-demand triggered via RFID or other external device capable of emulating a keyboard command
- Kiosk applications.
